Scottish Student Sport, I had an excellent opportunity last Friday to meet with the Sports Students Association representatives from across many of the Universities in Scotland. I was given the opportunity to highlight the benefits and encourage them as student sports clubs to affiliate to their local sports councils, using the National Guide to Sports Councils as the key tool to raise awareness. These universities or clubs will contact their local sports councils directly, please let me know if they do as it would be good to monitor the success of the meeting. – emailed to all
