- 2 Retrospective grants will not be considered. All applications must be made prior to the event or participation.
- 3 **Additional points to be borne in mind when considering applications**

When dealing with appeals for financial support for categories other than individual participation, coaching and officiating grants, the Sports Council will always take into account the annual subscriptions imposed by Clubs, together with the weekly charges. It is the view of the Sports Council that annual subscriptions and weekly charges should be realistic and that this expectation should apply equally to youth and adult clubs. Weekly charges should reflect realistically the facilities used by the Club and the facilities offered to members. It is the view of the Sports Council that the parents of young people taking part in Club activities must recognise the costs involved in running youth teams and must be prepared to contribute towards these costs.

Sportsmen and Sportswomen must recognise that participation in Club activities does not end there and that the financial position of the Club must be given due regard. Members must therefore be prepared to pay realistic charges for the privilege of taking part in their particular sport or activities and be prepared to be involved in appropriate fund raising activities.
